

# ACTA ENTOMOLOGICA MUSEI NATIONALIS PRAGAE

Vol. 49(1)  
**2009**

*Phthiadema cyanea*

# Acta Entomologica Musei Nationalis Pragae

Volume 49(1)

Date of issue: June 30, 2009

---

**Chairman of the editorial board:**

Josef Jelínek (Czech Republic)

**Editor-in-chief:**

Petr Kment (Czech Republic)

**Associate editors:**

Martin Fikáček (Czech Republic)  
Igor Malenovský (Czech Republic)

**English language editor:** David S. Boukal (Czech Republic)

**Advisory board:**

Michael Balke (Germany)	Lubomír Masner (Canada)
Jan Bezděk (Czech Republic)	Wolfram Mey (Germany)
Freddy Bravo (Brazil)	Carl W. Schaefer (USA)
Vladimír M. Gnezdičov (Russia)	Aleš Smetana (Canada)
Jiří Hájek (Czech Republic)	Alexey Yu. Solodovnikov (Denmark)
Petr Kočárek (Czech Republic)	Pavel Štys (Czech Republic)
Zdeněk Laštůvka (Czech Republic)	Sonja Wedmann (Germany)

---

Published biannually by the National Museum, Václavské náměstí 68, CZ-115 79 Praha 1, Czech Republic.

A continuation of Sborník Entomologického oddělení Národního muzea v Praze (ISSN 0862-0423).

**Scope of the journal:** *Acta Entomologica Musei Nationalis Pragae* (AEMNP) publishes entomological papers focused on taxonomy, nomenclature, morphology, bionomics and phylogeny as well as catalogues, faunistic papers dealing with large areas and short notes.

**Manuscripts should be sent to:** AEMNP journal office, Department of Entomology, National Museum, Kunratice 1, CZ-148 00 Praha 4, Czech Republic.

E-mails: [aemnp.editors@gmail.cz](mailto:aemnp.editors@gmail.cz), [aemnp@nm.cz](mailto:aemnp@nm.cz).

**Journal web page:** <http://www.nm.cz/publikace/acta.php>; <http://www.aemnp.eu>

Typeset & design: M. Fikáček.

Printed by H.R.G. spol. s r.o., Svitavská 1203, Litomyšl, Czech Republic.

Distributed by the Department of Entomology, National Museum, Praha.

Indexed in Biological Abstracts, Entomology Abstracts and Zoological Record.

ISSN 0374-1036

## Abbreviated instructions for authors

Full version of the instruction available at <http://www.aemnp.eu>

Journal *Acta Entomologica Musei Nationalis Pragae* (AEMNP) publishes entomological papers focused on taxonomy, nomenclature, morphology, bionomics and phylogeny as well as catalogues, faunistic papers dealing with large areas and short notes. The journal is open to authors from all over the world. Manuscripts are reviewed by two peer reviewers and evaluated by the editorial board. Papers not conforming to the journal style may be returned without a review. Manuscripts submitted to AEMNP must contain unpublished work and cannot be simultaneously submitted elsewhere.

AEMNP will consider manuscripts of any length but the editorial board may decide to publish long contributions in a supplementary issue. No page charges are required. Each author will receive 50 reprints and a PDF file for private use.

AEMNP only accepts manuscripts in clear and concise English; papers requiring extensive linguistic corrections will be returned to the authors. Subject to the editor's approval, papers may contain a translation of the summary or identification keys into other languages. Authors must follow the latest edition of the International Code of Zoological Nomenclature and its important recommendations, especially Recommendation 16C on the deposition of the type material in institutional collections.

**Text** (in .doc standard text file or .rtf format, 12 pt font size) should be double spaced and left justified; do not divide words and avoid unusual fonts. Manuscript should be structured as follows: title page, abstract, keywords, main text, acknowledgements, references, and figure legends. The main text should be divided into introduction, material and methods, results and discussion; some of them can be omitted where appropriate (e.g. in short notes). Page headings are supplied by the editors and approved by the authors in proofs.

**Tables** can be submitted in text format (MS Word files in .rtf and .doc formats) or in spreadsheets (MS Excel .xls format). Formatting should be kept simple; final layout assembled by the journal office will be approved by the authors in proofs.

**Illustrations** are accepted as original artwork or in TIFF format with at least 600 dpi resolution at print size for black-and-white illustrations and 300 dpi at print size for photographs.

The editors reserve the right to make minor editorial changes in line with the instructions for authors without the approval of authors.

Manuscripts should be submitted electronically to the journal office by e-mail or on a CD-ROM. Author(s) will receive one set of proofs. Requested original artwork and storage media will be returned together with the reprints.

All correspondence should be sent to the AEMNP journal office, Department of Entomology, National Museum, Kunratice 1, CZ-148 00 Praha 4, Czech Republic or e-mailed to [aemnp@gmail.cz](mailto:aemnp@gmail.cz), [aemnp@nm.cz](mailto:aemnp@nm.cz).

## CONTENTS

### ARTICLES

BATELKA J.: <i>Clinopalpus hanae</i> , a new genus and species of ripiphorid beetle from Malaysia (Coleoptera: Ripiphoridae: Pelecotominae). .....	239
BATELKA J.: Confirmation of the synonymy of <i>Rhzyostylops</i> with <i>Blattivorus</i> and the description of the male of <i>Blattivorus inquirendus</i> (Coleoptera: Ripiphoridae: Ripidiinae). .....	247
BEZDĚK J.: <i>Tituboea attenuata</i> , a new synonym of <i>T. biguttata</i> (Coleoptera: Chrysomelidae: Clytrinae). ..	283
BRAILOVSKY H.: Revision of the <i>Phthia</i> generic complex with a description of four new genera (Hemiptera: Heteroptera: Coreidae: Coreinae: Leptoscelini). .....	59
FALAMARZI Sh., ASADI Gh. & HOSSEINI R.: Species inventory, preys and host plants of Anthocoridae <i>sensu lato</i> (Hemiptera: Heteroptera) in Shiraz and its environs (Iran, Fars province). .....	33
FIKÁČEK M. & HEBAUER F.: Taxonomic revision of the New World species of the genus <i>Oosternum</i> Sharp (Coleoptera: Hydrophilidae: Sphaeridiinae). II. The <i>Oosternum convexum</i> species group. ....	103
