ACTA ENTOMOLOGICA MUSEI NATIONALIS PRAGAE

Vol. 51(2)
2011

Locoptiris taiwanensis

Acta Entomologica Musei Nationalis Pragae

Volume 51(2)

Date of issue: December 9, 2011

Chairman of the editorial board:

Josef Jelínek (Czech Republic)

Editor-in-chief:

Petr Kment (Czech Republic)

Associate editors:

Martin Fikáček (Czech Republic)

Igor Malenovský (Czech Republic)

English language editors:

Jitka Aldhoun (United Kingdom)

Grey T. Gustafson (USA)

Advisory board:

Michael Balke (Germany)

Lubomír Masner (Canada)

Jan Bezděk (Czech Republic)

Wolfram Mey (Germany)

David S. Boukal (Czech Republic)

Carl W. Schaefer (USA)

Freddy Bravo (Brazil)

Aleš Smetana (Canada)

Vladimir M. Gnezdilov (Russia)

Alexey Yu. Solodovnikov (Denmark)

Jiří Hájek (Czech Republic)

Pavel Štys (Czech Republic)

Petr Kočárek (Czech Republic)

Sonja Wedmann (Germany)

Zdeněk Laštůvka (Czech Republic)

Published biannually by the National Museum, Václavské náměstí 68, CZ-115 79 Praha 1, Czech Republic.

A continuation of Sborník Entomologického oddělení Národního muzea v Praze (ISSN 0862-0423).

Scope of the journal: *Acta Entomologica Musei Nationalis Pragae* (AEMNP) publishes entomological papers focused on taxonomy, nomenclature, morphology, bionomics and phylogeny as well as catalogues.

Manuscripts should be sent to: AEMNP journal office, Department of Entomology, National Museum, Kunratice 1, CZ-148 00 Praha 4, Czech Republic.

E-mails: aemnp.editors@gmail.com, aemnp@nm.cz.

Journal web page: <http://www.nm.cz/publikace/acta.php>; <http://www.aemnp.eu>

Typeset & design: M. Fikáček.

Printed by H.R.G. spol. s r.o., Svitavská 1203, Litomyšl, Czech Republic.

Distributed by the Department of Entomology, National Museum, Praha.

Indexed in Biological Abstracts, EBSCO, Entomology Abstracts, SCOPUS, Zoological Record and Scientific Citation Index Expanded.

ISSN 0374-1036 (Print)

© Národní muzeum, Praha – 2011

ISSN 1804-6487 (Online)

Volume 51/2011 is published with financial support provided by the Český literární fond Foundation, Prague.

Cover: *Locoptiris taiwanensis* Rédei & Tsai, 2011 (Heteroptera: Reduviidae). Orig. Dávid Rédei.

Abbreviated instructions for authors

Full version of the instructions available at <http://www.aemnp.eu>

Journal *Acta Entomologica Musei Nationalis Pragae* (AEMNP) publishes entomological papers focused on (i) insect taxonomy, (ii) nomenclature, (iii) morphology of adult and immature stages and/or their biology with possible applications in taxonomy and phylogeny, (iv) phylogeny at least partly based on morphological characters, (v) catalogues applicable for further taxonomy and biodiversity studies, and (vi) general papers on methodology of insect taxonomy. Manuscripts are reviewed by two peer reviewers and evaluated by the editorial board. Papers not conforming to the journal style may be returned without a review. Manuscripts submitted to AEMNP must contain unpublished work and cannot be simultaneously submitted elsewhere.

AEMNP will consider manuscripts of any length but the editorial board may decide to publish long contributions in a supplementary issue. No page charges are required for shorter papers with no more than two color plates. Costs of papers with high number of color plates and long papers published as supplements are subject to the editor's decision. Each author will receive 50 reprints and a PDF file for private use. Peer reviewers will receive the final PDF file of any manuscript reviewed by them.

AEMNP only accepts manuscripts in clear and concise English; papers requiring extensive linguistic corrections will be returned to the authors. Subject to the editor's approval, papers may contain a translation of the summary or identification keys into other languages. Authors must follow the latest edition of the International Code of Zoological Nomenclature and its important recommendations, especially Recommendation 16C on the deposition of the holotypes in institutional collections.

Text (in .doc standard text file or .rtf format, 12 pt font size) should be double spaced and left justified; do not divide words and avoid unusual fonts. Manuscript should be structured as follows: title page, abstract, keywords, main text, acknowledgements, references, and figure legends. The main text should be divided into introduction, material and methods, results and discussion; some of them can be omitted where appropriate (e.g. in short notes). Page headings are supplied by the editors and approved by the authors in proofs.

Tables can be submitted in text format (MS Word files in .rtf and .doc formats) or in spreadsheets (MS Excel .xls format). Formatting should be kept simple; final layout assembled by the journal office will be approved by the authors in proofs.

Illustrations are accepted as original artwork or in TIFF format with at least 600 dpi resolution at print size for black-and-white illustrations and 300 dpi at print size for photographs.

The editors reserve the right to make minor editorial changes in line with the instructions for authors without the approval of authors.

Manuscripts should be submitted electronically to the journal office by e-mail or on a CD-ROM. Author(s) will receive one set of proofs. Requested original artwork and storage media will be returned together with the reprints.

All correspondence should be sent to the AEMNP journal office, Department of Entomology, National Museum, Kunratice 1, CZ-148 00 Praha 4, Czech Republic or e-mailed to aemnp@gmail.com.

CONTENTS

ARTICLES

BATELKA J.: Contribution to the synonymies, distributions, and bionomics of the Old World species of <i>Macrosiagon</i> (Coleoptera: Ripiphoridae).	587
BESUCHET C. & HLAVÁČ P.: Contribution to the knowledge of Clavigeritae (Coleoptera: Staphylinidae: Pselaphinae) from Fiji and Vanuatu, with the catalogue of Clavigeritae of Oceania.	517
BHARTI H. & SHARMA Y. P.: <i>Myrmica longisculpta</i> , a new species from Himalaya (Hymenoptera: Formicidae: Myrmicinae).	723
BRAILOVSKY H.: A new species of <i>Pactye</i> from Papua New Guinea (Hemiptera: Heteroptera: Rhyparochromidae).	443
COLONNELLI E.: Notes on the taxonomy of <i>Urometopus</i> with description of a new species from northern Turkey (Coleoptera: Curculionidae).	675
FAÚNDEZ E. I. & CARVAJAL M. A.: A human case of biting by <i>Nabis punctipennis</i> (Hemiptera: Heteroptera: Nabidae) in Chile.	407
FIKÁČEK M., BARCLAY M. V. L. & PERKINS P. D.: Two new species of the <i>Epimetopus mendeli</i> species group and notes on its adult and larval morphology (Coleoptera: Hydrophiloidea: Epimetopidae).	477
GNEZDILOV V. M. & MOZAFFARIAN F.: A new species of the genus <i>Eusarima</i> (Hemiptera: Fulgoroidea: Issidae) from Iran.	457
HÁJEK J., ŠTASTNÝ J., BOUKAL M. & FERY H.: Updating the eastern Mediterranean <i>Deronectes</i> (Coleoptera: Dytiscidae) with the description of two new species from Turkey.	463
HISAMATSU S.: A review of the Japanese Kateretidae fauna (Coleoptera: Cucujoidea).	551
JÁKL S.: Description of seven new taxa of Cetoniinae from Indonesia (Coleoptera: Scarabaeidae).	535
KEJVAL Z.: Taxonomic revision of the Oriental species of <i>Notoxus</i> (Coleoptera: Anthicidae).	627
KOČÁREK P.: Dermaptera of Iran with description of <i>Euborellia angustata</i> sp. nov.	381
KOČÁREK P.: <i>Euborellia ornata</i> sp. nov. from Nepal (Dermaptera: Anisolabididae).	391
LACKNER T.: On the identity of <i>Chalcionellus orcinus</i> and <i>Chalcionellus libanicola</i> (Coleoptera: Histeridae).	505
PAPÁČEK M. & ZETTEL H.: A new subgenus and species of <i>Mixotrephes</i> (Hemiptera: Heteroptera: Helotrephidae) from Laos and notes on <i>Mixotrephes punctatus</i>	397
RÉDEI D. & TSAI J.-F.: The assassin bug subfamilies Centrocnemidinae and Holoptilinae in Taiwan (Hemiptera: Heteroptera: Reduviidae).	411
ROHÁČEK J.: Taxonomy of <i>Stenomicra cogani</i> , with description of <i>S. gracilior</i> sp. nov. from Turkey and comparative morphology of terminalia in Stenomicridae (Diptera).	697
STEHLÍK J. L. & BRAILOVSKY H.: Two new genera of the tribe Largulini (Hemiptera: Heteroptera: Largidae) from Greater Antilles.	449
ŠEVČÍK J., BECHEV D. & HIPPA H.: New Oriental species of Gnoristinae with pectinate antennae (Diptera: Mycetophilidae).	687
YIN Z.-W., LI L.-Z. & ZHAO M.-J.: <i>Batricavus tibialis</i> , a new genus and species of Batrisini from South China (Coleoptera: Staphylinidae: Pselaphinae).	529
